25X1A 1. Comment. Uhyst, Klitten and Rietschen are unloading stations and entraining stations in the Weisswasser troop training grounds area. The KVP trains probably were loaded with KVP personnel and equipment belonging to KVP units which returned to the posts of TV 6000 and TV 3000 upon completion of training.

25X1A 2. Comment. It is believed that the KVP trains belonged to KVI units of TV 6000 stationed in the area of the Halle railroad district headquarters. The trains possibly were dispatched from Weisswasser thus only passing through the Dresden railroad district.
